

Precautions to ensure safe usage

The precautions given below are intended to ensure safe and correct use of the products.
Note that certain restrictions apply to use of these products. Failure to observe these could result in injury or property damage.

 Warning	A potentially hazardous situation which could result in death or serious injury.
 Caution	A dangerous situation which could result in minor or medium injury and/or in which only property damage is foreseen.

Note: See the terminology glosses on our website for words marked with a ※.

RAKURAKU JOINT

1. This is dedicated for air (pneumatic) use. Avoid using any other.
※Do not use for fuel oil (heavy oil, kerosene (light oil), kerosene (lamp oil), gasoline) or solvents.
2. Before use, confirm that each coupling area is firmly connected. As well, when connecting or removing couplings and pneumatic tools, please keep a firm grip on them during the process until they are unmistakably connected or removed.
3. Please do not throw or drop hoses or couplings.
4.  **Warning** Residual voltage remains for several seconds after plug is removed: do not touch tool switches during this time. (Purge plug)
5. When replacing hoses and couplings, please use dedicated couplings. Please be sure not to use couplings other than dedicated couplings or to make connections with wire.
