

Precautions to ensure safe usage

The precautions given below are intended to ensure safe and correct use of the products.
Note that certain restrictions apply to use of these products. Failure to observe these could result in injury or property damage.

 Warning	A potentially hazardous situation which could result in death or serious injury.
 Caution	A dangerous situation which could result in minor or medium injury and/or in which only property damage is foreseen.

Note: See the terminology glosses on our website for words marked with a ※.

SAFETY CLAMP (Hose Clamp)

① Notes for use of SAFETY CLAMP

1. Retighten the hose clamp as necessary. Hose softens at high temperatures.
2. Fasten the hose clamp within the maximum tightening torque.
3. Do not wash the hose clamp with hot water or detergent, etc. Loss of oil component may cause tightening bolts to stick.
4. ⊕⊖ Take care not to injure hands when using a Phillips or slotted screwdriver.
5. Safety caps may be damaged or may fall off due to deterioration.
6. Avoid applications in which problems would be caused by the safety cap falling off.
7. Do not pull the clamp out of the housing and disassemble it. It may be damaged.
